PROFILE

My name is Kamran Ali Yusuf Ali, and I am from Akola, Maharashtra. I am currently pursuing my Bachelor's degree in Information Technology, and I am in my first year. My interest lies in AI/ML, and I am very passionate about it. I also built my own Generative AI model by learning the skills from a seminar conducted by Next Wave, an IT company and I have also received a certificate for it. Along with AI/ML, I am also interested in Web Development. My hobbies include playing Cricket, Football, and other sports.

WORK EXPERIENCE

Hackathon
Member

2024 - PRESENT

- During this hackathon, we built a website for underprivileged students as part of our problem statement. We used HTML, CSS, JavaScript, Node.js, and React as the frontend technologies, and Python with SQLite as the backend. I was responsible for handling the frontend part because I don't have much knowledge about backend development yet. However, after learning about it during this project, I became very curious and eager to explore backend development further.
- This was my first hackathon, where I learned many things such as time management, teamwork, and collaboration. I also got to know about my strengths and weaknesses. Our team qualified till the third round out of four, which was a great achievement for us as freshers participating for the first time. Overall, the experience was fantastic, and we are motivated to work harder to become the best team and win future hackathons.
- That's all about my working experience till now. I am eager to explore and learn more to improve myself and contribute to the world of technology with my skills.

EXTRACURRICULAR ACTIVITIES & LEADERSHIP

- Active participant in college Events and team activities.
- Strong leadership and teamwork skills from sports and hackathon experience.
- have a strong curiosity and passion for learning more about technology, continuously seeking to expand my knowledge and skills.

DECLARATION

I hereby declare that all the information mentioned above is true and correct to the best of my knowledge and belief.
